

FRENCH BAN BLAMED ON HOLLYWOOD

Goldwyn at Lily Damita Dinner Bespeaks Courtesy to Foreign Artists

It was not the French government that brought about the new French restrictive law against American-made films and they did it because Hollywood was rude to foreign artists, according to Samuel Goldwyn, who spoke last night at a dinner given by "HAFCO" (Hollywood Association of Foreign Correspondents) in honor of Lily Damita, French motion-picture actress who recently came to Hollywood.

"If you do not treat foreign artists well," he said, "how can you expect to get anything but the kind of laws the French lately have enacted? Without Europe and Europe's pictures we could not make the pictures we do today."

"Nine years ago I brought a great many foreign writers to America and I only wish they had remained because if they had we would have better pictures now."

The day of specially composed music for pictures has arrived, Mr. Goldwyn said, and in the near future great composers will be necessary to the studio as the writers and actors.

HAFCO, it was announced by Lily Damita, who acted as toastmaster, now has forty members, representing thirty-four foreign countries and sixteen foreign languages.

Charlie Chaplin and Sid Greenbaum, as did Miss Damita, many motion-picture celebrities were introduced by the toastmaster. There was a preview showing of "The Telling Heart."

Outbreak of Botulism in City Feared

Possibility of an outbreak of botulism poisoning was seen last night by Dr. Charles Sebastian, staff physician at Georgia Street Receiving Hospital, when he treated a woman and her three children for a violent and mysterious form of stomach disorder.

The mother is Mrs. Lorenza Barnada, 30 years of age, of 1123 South Evergreen avenue. Her children are Mary, 6; George, 5; and Chito, 3. The four victims of possible botulism were given emergency treatment and taken to the General Hospital.

Whether the malady which seized the mother and children following their dinner last night is botulism poisoning probably will be determined today after a chemical test is made of their stomach contents.

Police started a search for the husband, Pedro Barnada, who left home following the evening meal. It is not known whether he had suffered from possible tainted food eaten by the family.

It cost New York City \$16,000 to clean the streets after the bumper shower greeting to the Bismarck.

Will Rogers Remarks:

BEVERLY HILLS, May 30.—[To the Editor of The Times:] How would this do as a compromise way to build Boulder dam? Put California Senators and Representatives on their side of the river and Arizona on their side and let 'em start throwing boulders at each other. In a year there would be enough rocks in the river to make Boulder dam.

The boys are all on their way home now to take care of their campaign contributions.

It's a tough year for the voter. Every man is trying to be elected as cheaply as possible. Even Pennsylvania and Illinois votes was never bringing as little as they are this year. It don't hardly pay a man to vote.

Yours,
WILL ROGERS.

BOMB BLAST JARS OFFICE OF OBREGON

MISSILE EXPLODES WITH SLIGHT DAMAGE IN EMPTY CAMPAIGN HEADQUARTERS

MEXICO CITY, May 30.—A bomb exploded at the Presidential campaign headquarters of Alvaro Obregon this evening. There were no casualties and only slight damage.

The explosion took place in a room empty of people, although the building itself in other parts was crowded.

Police immediately placed heavy guards about the doors of the building and would not let any one leave.

The bombing occurred just one week after three bombs were placed in a lavatory room off the Chamber of Deputies presumably with the intention of killing members of Congress, most of whom are of Obregon's political faith.

Coolidge Fetes Party Leaders

WASHINGTON, May 30.—Vice-President Dawes and fifteen Republican leaders of Congress were breakfast guests today of President Coolidge. Ranking members of each branch of Congress, headed by the party's leaders, comprised the group.

The Senators were Curtis, Kansas; Borah, Idaho; Smoot, Utah; New Hampshire; Warren, Indiana; Warren, Wyoming; Phillips, Colorado; and Fess, Ohio. The House members, headed by Speaker Longworth, were Tilton, Connecticut; Perkins, Maryland; Wood, Indiana; Mages, Michigan, and Johnson, South Dakota.

Do not ratify the Nettuno treaty.

Although the government and police were bitterly criticized in the Skupstina today for their vigorous action in suppressing anti-Italian demonstrations throughout Jugo-Slavia, no representative of the government was present to answer interpellations regarding its intentions as to the ratification of the Nettuno treaty, which both Belgrade and Rome officially regarded necessary before amicable relations are possible between the two countries.

The government officially has informed Rome that despite the protest throughout the country against the treaty, which gives Italians rights of language in schools and property on the Dalmatian coast ratification will be ratified as soon as conditions are favorable.

ENDURANCE FLIGHT ENDS IN FAILURE

Motor Break Forces Pair at Santa Ana to Ground After Many Hours in Air

SANTA ANA, May 30. (Exclusive) The Albatross, huge monoplane that has tried persistently to break the world's endurance flight record, got away to another attempt at 7 a.m. today but at 10:30 the pilot returned from the take-off with the engine of the Albatross having broken down.

The plane was a perfect one in spite of the crippled motors. The pilots declared they will make another attempt.

FLYERS INTO UNKNOWN

Spanish Pair Unreported Forty Hours After Start; Havana May be Destination of Aviators

NEW YORK, May 30.—The outcome of one more long-distance airplane venture was a matter of mystery tonight. The Spanish aviators, Capt. Ignacio Iglesias and Francisco Jimenez, who set off at noon Tuesday from Seville, Spain, on what purported to be a flight to Karachi, India, had not been heard from tonight since the start of their flight.

With the lapse of forty hours since their take-off speculation had arisen as to whether mishap had befallen them or whether they had not adhered to an original intention and turned their planes toward Havana, Cuba.

Since the take-off at noon Tuesday there has been no word of anyone having sighted the plane, christened "Jesus Dei Gran Poder"—in English, "Jesus of the Mighty Power." This and the fact that most of the route to Karachi was over land, where they most surely would have been sighted once or twice, has given rise to some questioning as to the direction they actually took.

WEST VIRGINIA FAVORS SON

Senator Goff Leads Hoover in Primary by 6000; Democrats Prefer Smith to Reed

CHARLESTON (W. Va.) May 30.—[P] Senator Guy D. Goff, West Virginia's "favorite son" candidate in the race for the Republican Presidential preference, held a lead of 6012 votes over Secretary of Commerce Hoover late today as returns came in from yesterday's State primary. In the race for the Democratic Presidential preference Goff Smith held an advantage threatened for a time, over Senator Reed.

There was one unusual shift in the trend of the returns when the Missouri Senator late today drew up to within eighty-one votes of Goff Smith. The New York executive's lead increased again, however, when returns from 114 precincts of the State had been counted.

The vote for these precincts was: Smith, 42,979; Reed, 34,749.

The vote in the Republican Presidential preference contest from 1344 precincts was: Goff, 75,749; Hoover, 69,737.

MOVING PICTURE ENVOY AT GENEVA OVER FILM BARS

GENEVA, May 30.—Col. Edward Lowry, representative of organized American moving pictures, has come here to inquire into the effects upon the exportation to Europe of American moving pictures of the convention for the abolition of import and export prohibitions. He also will study methods of cooperation with the League in education and scientific films.

France has made provisional reservation to the convention concerning the importation of films, and Col. Lowry will try to determine how acceptance of this will influence the agreement recently reached between Will Hays and France.

Gettysburg Address Lauds Kellogg Treaties as Paramount Moves for International Concord

GETTYSBURG (Pa.) May 30.—[P]—Delivering the annual Memorial Day address on the famous Gettysburg battlefield, President Coolidge called upon the whole nation today to help establish peace at home and abroad. Such efforts, he said, were the least due to those who had given their lives for the United States and for whose honor Memorial Day was set aside.

Speaking from almost the same spot whence Lincoln made his immortal Gettysburg address, thousands more of whom had jammed the route from the station to the National Cemetery. Received by the local officials and escorted to the speakers' platform, Mr. Coolidge began speaking immediately after Lincoln's address had been read.

MOTOR-VICTIM TAX PROPOSED

Bar Association Considers
Sacramento's Plan

Five-Dollar Rise in Auto
Licenses Suggested

Fund of \$8,400,000 Formed
Thus to Salvage Hurts

SAN FRANCISCO, May 30. (AP)—A suggestion that the annual motor-vehicle fee be raised from \$3 to \$8 is being considered by the State Bar Association. The additional revenue would create a fund to be distributed by a proposed automobile-accident commission to recompense families of victims of careless and financially irresponsible automobile drivers.

A complete study of this plan has been ordered by the state bar, Dr. W. W. Cross, Health Officer of Sacramento, is credited with offering the suggestion and is quoted as

HANDS AND FEET OF WORKER SLOWLY BECOMING MUMMIFIED

BRIDGEPORT (Ct.) May 30. (Exclusive)—Medical authorities here are apparently baffled by the curious ailment of Carl Coupe, a factory worker, whose hands and feet are becoming mummified, incapable of feeling. His case has come to attention as a result of his assertion that his condition was caused by an injury suffered by him while at work in the Gilbert & Bennett factory at Georgetown, Ct. A hearing is being conducted before Commissioner Williamson of the

Workmen's Compensation Board. The doctors who have studied the case believe the strange malady that is afflicting Coupe cannot be arrested and that eventually his body will become completely mummified. Doctors George T. Powers of Boston and Dr. Dudley Carleton, surgeon at Springfield Hospital, told the compensation commissioner they believe Coupe to be suffering from a rare malady known as "dupuytren's contracture." They expressed the opinion it was brought on by Coupe's factory injury.

saying that the proposal would raise \$8,400,000 annually for the benefit of injured persons. The fund, he suggests, should be handled by the Industrial Accident Commission, the State Compensation Insurance Fund, or by the creation of a new board with power to act in automobile cases.

The matter has been referred to the State Bar Association for an intensive study as to its feasibility. "The problem of automobile accidents is a serious one," said President Webb today. "The board of governors, in submitting this matter to the section on regulatory

commissions for study was prompted by a desire to assist in crystallizing sentiment on the subject, promoting discussion and possibly finding a remedy for a difficult situation." Many persons who are injured or the dependents of persons who are killed in automobile accidents find that the drivers responsible for the tragedy are unable judgment-proof. Dr. Cross asserted in offering his plans for the \$5 increase in automobile licenses.

A goat will yield fifteen times its weight in milk annually, while a cow gives but six times its weight.

DES MOINES (Iowa, May 30. (AP)—Adjourning after a short session this morning to permit delegates to take part in Memorial Day exercises, the annual convention of the United States Good Roads Association heard proposals from two speakers for a nation-wide system of Federal-controlled highways. A. R. Hall of Illinois, endorsed the Holiday bill, which has been introduced in Congress and provides for a network of superhighways, built and maintained by Federal appropriations and connecting all State capitals and large cities. Expenditure of \$2,000,000,000 annually for twenty-five years as a Federal road-building policy was advocated by Col. T. L. Kirkpatrick of Charlotte, N. C., as part of an internal improvement program. This plan, he said, will complete a national road system of 1,500,000 miles. As a possible source of revenue, Col. Kirkpatrick suggested a small national gasoline and license tax.

A score of Luftwaffe planes escorted them to the airfield.

CAMPAIGN FUND GROUP DIVIDES

Senatorial Inquirers Plan
Separate Hearings

Ohio and New York Contests
to Be Examined

Heflin to Give Testimony
Before Quiz Body

WASHINGTON, May 30. (AP)—In order to fully cover the wide area it has plotted in its investigation of expenditures in the Presidential campaign, the Senate Inquiry Committee will branch out Friday in two directions. Two members will go to Cincinnati tomorrow night and two others will leave for New York. Still another subcommittee may go into Indiana to look more deeply into the campaign of Senator Watson. Republican of that State, but final decision was deferred today.

OHIO INQUIRY

The Ohio inquiry will concern expenditures on behalf of Herbert Hoover and those for the late Senator Willis, his opponent. Excursions to Ohio cities other than Cincinnati will depend on information received from witnesses. The New York trip again will concern the Gov. Smith campaign.

Before the Senate inquirers decided on their plans the special House investigation committee appointed yesterday to cover the same ground held an organization meeting but indicated that it would take no definite action until after the Kansas City Republican Convention.

TWO SESSIONS

The Senate committee will hold two sessions here tomorrow, hearing in the morning Representative Snell, Republican, New York, and in the afternoon Senator Heflin, Democrat, Alabama. Snell is understood by Chairman Steiwer of the committee to have information which the inquirers should have before going to New York. Heflin has opposed the Smith candidacy.

The resolution of Senator Eleanore, Democrat, South Carolina, adopted by the Senate and directing the committee to inquire into the Hoover food administration was considered today and the committee decided that that phase could not be gone into at this time. Senator Steiwer said the matter might have to go over for some time.

Cycol... the oil with "endurance beyond belief"... eliminates carbon trouble.

Stability The New Cycol will stand the hardest kind of usage. It is refined to meet the severest conditions of heat and pressure developed by the modern high compression engine, ensuring you an unbroken oil film where heat, pressure and friction are greatest.

No Acids The new Cycol refining process eliminates the use of acids, though most refiners use them. While acids clear the "crude oil" they chemically change its structure and composition, thus seriously cutting its lubricating value.

Such oils break down under engine temperatures. They distill off and escape as vapor through the breather exhaust.

The new refining process of Cycol is different in every respect. It selects from the "crude" those elements of greatest lubricating value and stability in performance, rejecting at the same time those elements which readily break down under engine heat and cause excessive carbon deposits.

So Cycol gives a protective oil film on cylinder walls and moving parts, not vapor at the breather pipe.

Less Carbon As to carbon, Cycol like all other oils deposits some carbon. But it deposits less carbon than any other oil. The most exhaustive tests have proven that statement.

And even more important, the carbon that is deposited by Cycol is soft and easily removable. It is not hard or sticky and cannot scratch a cylinder.

Prove it Yourself For these reasons you will find that Cycol gives you the finest results you have ever known—more perfect lubrication, "endurance beyond belief" and the elimination of carbon troubles.

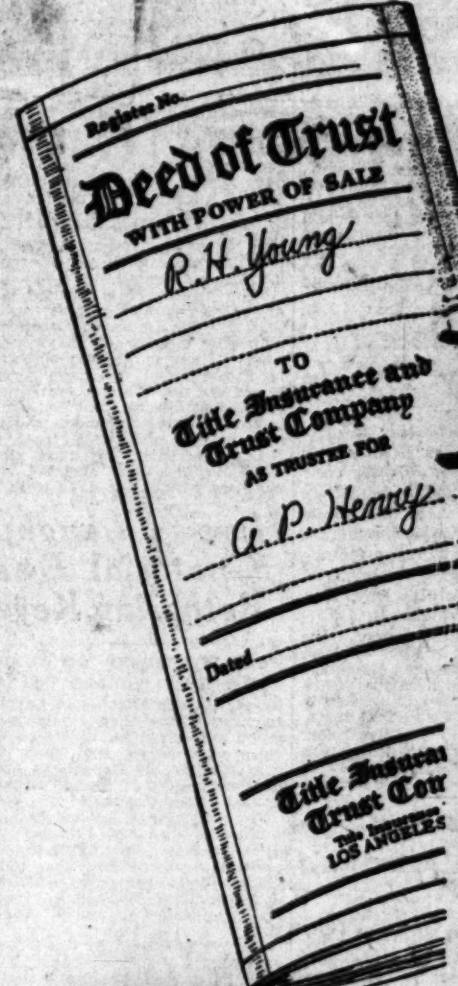

So fill your crank case with Cycol. You can identify it by the new transparent green-gold color.

WESBROOK, HUNTER MEET FULLER, SEAVAR TODAY

Noon and Hughes Take Low Net With 72-11-61; Mixed Foursomes Open Sunday to All Golfers

BY EDWARD LAWRENCE

Turning in best ball of 67, Dr. Paul Hunter and Harry Westbrook, and Paul Lavelle and John M. Read went into a three-way tie with Paul R. Jones and Conway Teale for low gross honors in the fifth annual Hollywood Country Club invitational tournament yesterday. Jones and Teale teed off Tuesday, while the former played eighteen holes yesterday.

Low net was won by F. C. Hughes and E. E. Noon, 72-11-61. Match play starts today, with the Hollywood flight scheduled to get away at 1:15.

It appeared for a time that both teams would break 67. Hunter and Westbrook had a 65, but hooks and slices on the seventeenth and eighteenth spoiled their chances.

Unfortunately, Hollywood will not have a team in the Hollywood flight. Stanley Hughes and W. G. Higgins putted themselves into the third flight, while Richard Robinson, club champion, and C. H. Herberts made the second flight.

A great match is expected this afternoon, when Charles Seaver and William Fuller, Jr., of the Los Angeles High School team, meet Dr. Hunter and Westbrook at 1:15. It will be a test of youth vs. age, and the youngsters are just as apt to come through as not.

Mixed foursomes are scheduled Sunday. They are open to anybody regardless of whether or not they play in the tournament. A large entry is expected.

In keeping with the high character of the contest itself, an unusually attractive array of trophies, medals and other awards awaits the winners of the Southern California Junior Olympic finals, which will be held at Moore Athletic Field, U.C.L.A. Saturday afternoon.

These awards are aside, of course, from the honors that already have come to the boys who have won their round-trip expenses paid from the winners of the Southern California Junior Olympic finals, which will be held at Moore Athletic Field, U.C.L.A. Saturday afternoon.

Mack House to Go East With New Manager

Heavyweight who has knocked out most of his opponents except Neal Clisby, his jinx, will go to Chicago and Philadelphia for a series of matches.

Joe Glaser announced yesterday he had bought the colored fighter's contract from Watson Burns for \$5000 and would take him east with him soon.

There is a possibility that House may meet John Lester Johnson in a bout here on the Coast before Glaser begins active management of him.

SCIENCE FINDS WAY TO FIGHT VORACIOUS WOOD BORERS OF SEA

WASHINGTON, May 30. (AP)—A defense against terrors of the seas, which are said to have destroyed more wooden ships than all naval wars in history, and brought equally heavy destruction on wooden dikes and wharf foundations, was announced today as having been developed by the chemical warfare service of the War Department. Experiments against these sea ter-

rors, which are small marine borers or pests, bearing the names teredo, bancia, manassa and limnoria, have been going on for some time. A derivative of lewisite—chlorovinyl-arsenious oxide—has performed the trick with its high toxic properties. The borers riddled belt strips, but were stopped on reaching the piling treated with the newly developed solution.

Escape From Jail Thwarted

MODESTO, May 30. (AP)—Plans for a break from the Stanislaus County Jail were frustrated by deputy sheriffs of a hack saw fashioned from a knife blade. The instrument was found in a cell occupied by Wilbur Doran and Harry Price. The blade was found fifteen minutes after Doran had surrendered after escaping from a courtroom two days ago. He is charged with burglary.

STUDENT DROWNED

BAKERSFIELD, May 30. (AP)—Edmund Miller, 16-year-old Bakersfield High School student, was drowned in the swift waters of Kern River today. His body was washed down stream for half a mile before being recovered by the lad's father, who swam all the way down stream after him.

WIFE KILLER MAKES NEW CONFESSION

Oakland Man Tells How
He Made Small Sons Help
Dispose of Mother's Ashes

OAKLAND, May 30. (Exclusive)—In his ninth confession of the murder of his wife and the disposal of her body so he might marry another woman, Arthur L. Antoine impressed police today with the truthfulness of his latest explanation of the tragedy. He has been convicted of the murder and sentenced to life imprisonment. The body never has been found. The latest confession is at least circumstantially supported by other items, detectives announced, and brings again to the fore a possibility that was hinted during the trial by one of Antoine's two sons, but was not pressed to amplification at the time. The possibility was that the two Antoine boys, Kenneth, 9 years of age, and Ronald, 7, unwittingly helped to dispose of their mother's body. Antoine now avers that after slaying his wife in her bed, he dissected the body. The parts he said, were put into sacks and thrown into the San Joaquin River from a bridge on the highway to Stockton. Grappling began yesterday when the hooks were lost but will be continued. Other parts Antoine declared, were buried in his kitchen stove and his two boys carted the ashes into a near-by yard and heaped them there.

MARSEILLES (France) May 30. (AP)—Van Lear Black, Baltimore publisher, arrived at Marseilles from Chartum this morning and boarded a Dutch plane for a nonstop flight to London. Mr. Black was forced to postpone a 40,000-mile world air cruise when he reached Egypt recently, his plane developing engine trouble.

APPELLATE CASES GET PREFERENCE

Supreme Court Gives
Superior Bench Pleas
Second Ranking

SAN FRANCISCO, May 30. (Exclusive)—William H. Waste, Chief Justice of the State Supreme Court, announced today the June calendar of the court in Los Angeles will be devoted wholly to the consideration of appeals which have been taken from rulings by the State's two District Courts of Appeal. It will be the first time in the memory of those connected with the Supreme Court that direct appeals from the Superior courts have been relegated to secondary consideration in favor of the next higher tribunal. Appeal litigation has amounted to an unusual extent, Justice Waste explained, and it is necessary to clean up the calendar. Success of the Judicial Council's method of attacking the congestion of the Superior courts, with the result that hundreds of long-standing cases were cleared up in a few months' time, is believed to have suggested the plan of going after appeals intensively. In a chart prepared by B. Grant Taylor, clerk of the Supreme Court and secretary of the Judicial Council, it is shown that in 1926 criminal cases numbered 6027 and civil cases 37,856. In 1927, criminal cases on the calendar had mounted to 7100 or an increase of more than 1000, and civil cases leaped to 42,885, an increase of more than 5000.

G.O.P. TO SETTLE SEAT CONTESTS

Seventy-three Credentials Under Dispute

Majority of Conflicts Come from Far South

Decision to Have Bearing on Hoover Vote

WASHINGTON, May 30. (AP)—Contests affecting seventy-three seats in the Kansas City convention have been recognized by the Republican National Committee, with the probability that those involving six will not be pressed. The committee has been called to meet in Kansas City next Monday, eight days before the start of the convention, to pass on the disputes which in all but one case, Porto Rico, have arisen in southern states. Former Senator Popper, retiring national committeeman from Pennsylvania, will be in charge of the hearings, and those who are not satisfied with rulings have the right of appeal to the credentials committee to be named after the convention organizes.

THREE FULL LISTS
The entire delegations from three states—Louisiana, Mississippi and Texas—are in contest, as are nine of ten Florida seats, the two from Porto Rico, three from Georgia, two from Kentucky and one from South Carolina and three from Tennessee.

Word has been received, however, that the state of four delegates at-large from South Carolina arrayed against "Joe" Tulbert, Republican national committeeman, will not be presented for recognition, and it is expected that the contest involving the two convention seats allotted to the Third Tennessee District also will drop by.

ENVOYS WILL BE G.O.P. GUESTS

Foreign Representatives To Be At Kansas City Convention

KANSAS CITY, May 30. (AP)—Two representatives of foreign governments, Vincent Massey, Minister from Canada to the United States, and Jan Ciechanowski, Polish Minister, will attend the Republican National Convention here, beginning June 12.

Another American envoy in addition to Myron T. Herrick, whose coming was announced yesterday, also will attend the convention. He is Alanson B. Houghton, Ambassador to Argentina.

Mr. Houghton will accompany the New York delegation on its special train, arriving here on Sunday before the start of the convention. The delegates to the convention are not going to nominate a candidate who is not in full sympathy with the needs of agriculture. Neither will they be stampeded into the nomination of a candidate who is so bound by pre-election promises that he cannot view this subject from all of its highly important angles.

FLORIDA FIRST
As it stands now, the national committee, which is held down to work Monday, will bump into its first task of refereeing when Florida is reached on the roll call of states. George W. Beebe, national committeeman whose rule has been challenged frequently of late, heads one slate of delegates which is unopposed. He is a Republican, and is in one camp, and Walter L. Cohen, negro compromiser of customs at New Orleans, is in the other.

FARM "PARADE" IDEA ASSAILED

Nebraska Scores Plans for Convention Jaunt

Scheme Declared Obvious "Political Trick"

Leader of Kansas Takes Opposite Stand

LINCOLN (Nebr.) May 30. (AP)—The attempt of McNary-Haugen farm relief legislation advocates to induce 100,000 farmers to attend the Republican convention at Kansas City and demand "economic equality" is branded as a "political trick" by former Gov. Sam McKelvie of Nebraska in a public statement here today.

President Coolidge in Gettysburg Address Calls Nation to Strive for World Peace

WELLOGG PACTS PRAISED AS FORWARD MOVEMENT

Outlawry of War Characterized as Vital to Development of American Idealisms

(Continued from First Page)

brings our entire nation in reverence and respect to the graves of our departed soldiers. Each year their number has increased, as that long blue line which stood so valiantly for the cause of the Union has grown thinner and thinner, until today it has almost vanished from earthly view.

On Fame's eternal camping-ground Their silent tents are spread, And Glory guards with solemn round The bivouac of the dead.

"We do not come to lament, but to give thanks. With one acclaim the people bestow upon them all that divine salutation, 'Well done, thou good and faithful servant.'"

"To express our devotion we have come to the field of Gettysburg. It ranks as one of the great historic battle grounds of this continent. In the magnitude of its importance it compares with the Plains of Abraham, with Saratoga, and with Yorktown. It is associated with a great battle between the Union and Confederate forces and with one of the greatest addresses ever delivered by one of the greatest men ever in the world, Abraham Lincoln.

DEEP RESPECT

"The respect in which the United States holds its service men is indicated by something more substantial than lip service. Between \$6,000,000,000 and \$7,000,000,000 have gone out of the United States Treasury in pensions and gratuities to those who fought in that war which reached its crest upon this hard-fought field. These payments are still going on at the rate of about \$200,000,000 each year. To the account of those who took part in the World War, for benefits and compensations in the short period of ten years since its close already there has been set aside almost \$5,000,000,000, and payments are going on at the rate of about \$500,000,000 each year. Our people do something more for their service men and their dependents besides giving them a kind word while they live and placing a wreath on their last resting place when they are gone.

"All the countries on earth in all their history, all put together, have not done as much for those who have fought in their behalf as our country alone has done in the past fifty years. Our appreciation and our devotion is evidenced by something more than tributes and monuments and yearly assemblages devoted to their praise.

GREAT OUTLAY

"While making these tremendous expenditures for the benefit of those who have seen military service, our country at the same time is making outlays in excess of those ever

before made in time of peace for the purpose of national defense. Yet our military force is exceedingly moderate, our standing army is small, our National Guard and Reserve represent little more than a supplementary police force, when we consider our great area at home and our obligations in our outlying possessions. Our naval force necessary for the protection of our commerce, which is world wide and not exceeded in importance by that of any other country, while of very respectable proportions, needs to be strengthened in cruisers and other auxiliary craft. Such construction is already under way and plans are maturing for the necessary increase. Our air forces are being steadily improved and enlarged.

"While we are maintaining these moderate forces, we are especially anxious for the world to know that they are purely for defensive purposes and to promote general peace and tranquility. No other nation anywhere which we could think of taking by force. Our restrictive immigration law is a declaration of national policy against the acquisition of the territory of any foreign people. Though we have at this time some of our forces in Haiti, Nicaragua and China, and in none of these places for the purpose of making war, but for the purpose of insuring peaceful conditions under which the rights of our nationals and their property may receive that protection to which they are entitled under the terms of international law.

"Our further purpose in Haiti and Nicaragua is to assist the peoples and governments of those two countries in establishing stability, in maintaining order and peaceful institutions in harmony with civilized society. We are there at their express invitation and in accordance with explicit agreements.

ATTITUDE ON WAR

"The world-wide interests of the United States aside from the dictates of humanity make us view with peculiar disfavor not only any danger of being involved in war ourselves, but any danger of war among other nations. Our investments and trade relations are such that it is almost impossible to conceive of any conflict anywhere on earth which would not affect us injuriously. The one thing that we want above all else for ourselves and for other nations is a continuance of peace. Whether so intended or not, any nations engaging in war would thereby necessarily be engaged in a course prejudicial to us.

"The strength of this nation, however, is not expressed merely in terms of an army and navy. A yet greater power is derived from the happiness and contentment of the people. During recent years this has been our national position to a greater extent than ever experi-

enced by any other people. A realization of the benefits derived from our political and economic institutions naturally results in patriotic devotion. The efforts made to establish a government free from tyranny, in which the fullest freedom consistent with order and justice would be granted, and where opportunity would be open and industry attended with the largest rewards, all have important bearing on the subject of national defense.

ADDED RESOURCES

"But to the contentment and patriotism of the people there must be added the resources that are derived from prosperous industry, agriculture and commerce. Good credit, which is derived from sound financial conditions, is the principal foundation of national defense.

"That country which has so secured its finances as to be in a position to furnish the largest amount of money will always be in the best position to protect itself. Reduction of taxes which stimulates private enterprise and increases our credit, is a most important addition to our national strength. The industrial advance, the agricultural development, the financial resources strengthened by wise policies in time of peace are of inestimable value in time of war.

"A people which gives itself over to great armaments and military display runs great danger of creating within itself a quarrelsome war spirit. The power of the sword or the power of the Constitution was to be supreme. Under republican institutions an industrial and law-abiding people will make a war-like nation. Like some of the people of the world, they will make a war-like nation. Like some of the people of the world, they will make a war-like nation. Like some of the people of the world, they will make a war-like nation.

CRIME CAUSE

"While the people of the United States as a whole are peaceful and law-abiding to a remarkable degree, it can be denied that we have had sporadic outbreaks of crime, especially those of violence, which are exceedingly disturbing. Such a condition will indicate, if continued, a loosening of the moral fiber of the nation. It is very easy to cast the blame upon the police authorities, the prosecuting officers, and the courts. But if a criminal condition continues to prevail, the blame goes beyond these officials. We live under a system of popular government. Our officers reflect to a very large degree public opinion.

"If the people themselves show that they are determined to have crime stamped out, there will be no lack of vigilance on the part of the police, no lack of energetic action on the part of prosecuting attorneys, and no lack of adequate penalty on the part of the courts. If the people are careless and indifferent, if they look with complacency on crime and assume a sentimental attitude toward criminals, little reform can be hoped for. If, on the other hand, the people remember that good government only can be secured by the exercise of stern vigilance, that it is necessary constantly to resist evil tendencies, if they will take such action

"The reason for this is not far

LINCOLN TRIBUTE BY COOLIDGE

President Sends Wreath to Decorate Honored Tomb of Predecessor

SPRINGFIELD (Ill.) May 30 (AP)—Leaning against the sarcophagus of Abraham Lincoln's tomb today is a wreath sent by President Coolidge following his annual custom since a visit to Springfield several years ago. The wreath is about eighteen inches in diameter.

It was mailed directly from the White House to Herbert W. Fay, custodian of the tomb. The box contained a card on which was written "The President."

to seek. War means the application of force. Peace means the application of law. The principal effort of civilization is to bring about world-wide obedience to law. The great conflict which raged upon this battlefield had for its ultimate decision the question whether the power of the sword or the power of the Constitution was to be supreme. Under republican institutions an industrial and law-abiding people will make a war-like nation. Like some of the people of the world, they will make a war-like nation. Like some of the people of the world, they will make a war-like nation.

CRIME CAUSE

"While the people of the United States as a whole are peaceful and law-abiding to a remarkable degree, it can be denied that we have had sporadic outbreaks of crime, especially those of violence, which are exceedingly disturbing. Such a condition will indicate, if continued, a loosening of the moral fiber of the nation. It is very easy to cast the blame upon the police authorities, the prosecuting officers, and the courts. But if a criminal condition continues to prevail, the blame goes beyond these officials. We live under a system of popular government. Our officers reflect to a very large degree public opinion.

"If the people themselves show that they are determined to have crime stamped out, there will be no lack of vigilance on the part of the police, no lack of energetic action on the part of prosecuting attorneys, and no lack of adequate penalty on the part of the courts. If the people are careless and indifferent, if they look with complacency on crime and assume a sentimental attitude toward criminals, little reform can be hoped for. If, on the other hand, the people remember that good government only can be secured by the exercise of stern vigilance, that it is necessary constantly to resist evil tendencies, if they will take such action

as is necessary to give adequate expression to their determination to terminate lawlessness and crime, it can be done.

"For the purpose of promoting a reign of law in the world there is a special obligation resting upon all public officials. In our own country, and in most others, the government is one of limited powers. The purpose, as has been so well expressed, is to provide a government of law and not of men. The great majority of offices are those created by statute. Those who fill such places should be alert to ascertain the powers with which they have been invested and scrupulous to observe the law under which they have been appointed. But in addition to these there is a considerable body, executive, legislative, and judicial in its functions, which derive their authority directly from constitutional sources. None of these are all-powerful, but are held within strict limits. They have all come into existence because the people have decreed by their constitutions that they should be clothed with certain limited authority.

LARCENY OF POWER

"The chief temptations to go beyond the bounds which the people have set arise in legislatures. In their desire to take some action which they conceive to be in the public interest, they oftentimes manifest a disposition to exceed their constitutional authority. Such action is a larceny of power. Responsibility for it can not be evaded by the weak plea to let the law be passed and the courts can decide its constitutionality. Legislators are required to qualify upon their solemn oath. That oath is not that they will leave the courts to defend and support the Constitution. It is that they themselves will defend and support it. When additional authority is required, they should apply to the people to amend the Constitution, and not attempt to evade it or strain it by subterfuge and misconception.

"The same necessity for being law-abiding at home applies to our citizens when they are abroad. Our people are granted free access on the same basis as others into all the countries of the world. As a general policy they go with the encouragement of our government to engage in all kinds of enterprise. But when once they have set foot in foreign land, it is their duty to render obedience to the domestic and international law which is applicable to their proposed actions. Our government necessarily has rights over its citizens and their property in what-

DUTIES ABROAD

"A government of the United States that failed in its duty to protect the lives and property of its citizens would be justly condemned at home and abroad. Our citizens ought to remember that it is their duty so to conduct themselves in their relations with foreign interests that they are worthy of whatever protection they may need from their home government.

"Obedience to international law, however, is a reciprocal duty. It is necessary not only that we scrupulously observe it ourselves, but that it be known that we shall require such observance from others. When we make agreements with

FAMILY HISTORY REPEATS SELF

Son of Lincoln's Engineer Pilots Coolidge Train to Gettysburg

GETTYSBURG (Pa.) May 30 (AP)—The engineer of the special train which brought President Coolidge and his party to Gettysburg today was Grant Eckert, son of John Eckert, who piloted the train which carried President Lincoln to Gettysburg just sixty-five years ago for his memorable address.

The engineer of the Coolidge special was celebrating his 64th birthday. Ordinarily this is his day off, but he gave it up to make the run. Lincoln presented the elder Eckert with a gold watch as a token of appreciation for his services on the momentous occasion.

ever country they may be. While we do not and cannot undertake to interfere in the application of domestic law to our nationals, unless it contravenes the rights of our government and people under international law, nevertheless the carelessness of some of our citizens abroad in violating domestic law and in assuming an arrogant attitude toward the local inhabitants tends to bring our country into disrepute and endangers the continuance of friendly relations.

DUTIES ABROAD

"A government of the United States that failed in its duty to protect the lives and property of its citizens would be justly condemned at home and abroad. Our citizens ought to remember that it is their duty so to conduct themselves in their relations with foreign interests that they are worthy of whatever protection they may need from their home government.

"Obedience to international law, however, is a reciprocal duty. It is necessary not only that we scrupulously observe it ourselves, but that it be known that we shall require such observance from others. When we make agreements with

other nations we must see that they are performed. If they are ever to be abrogated, it must be only in accordance with their terms. For us to insist at all times and places on the observance of international law is to strengthen the main foundation of peace. By our influence and by our example we can do much to discourage all acts of international lawlessness.

"After all, peace is a spiritual attainment. We can set up material safeguards like fortifications and armaments which will afford us much protection against attack, but unless we cultivate and cherish sentiments of friendship and understanding they are no guaranty of peace. One method of arriving at a better state of understanding, so that friendship may be preserved, is to provide before the event for methods of negotiating and adjudicating matters in dispute. In furtherance of the plan of this government to settle international controversies by pacific means and thereby lessen the causes of war, the United States is now negotiating new arbitration treaties and additional conciliation treaties with the principal nations of the world.

CONFERENCE IN PROSPECT

The Pan-American Conference which met at Havana in January, 1928, passed a resolution calling a conference of all the American States to meet in Washington within a year to draft treaties of arbitration and conciliation. For that purpose, such a conference probably will be held in Washington the latter part of this year. The peace of the world cannot, of course, be obtained by any one single act, but every treaty of arbitration and conciliation and every agreement against resorting to war adds another barrier against those conflicts which from time to time have recurred in the history of nations, and it is the hope of mankind that these repeated steps may in time establish a mode of thought and a custom of action that will do much to prevent war.

As is well known, we are also engaged in conversations with different powers for putting peace on a new basis and making it still more permanent. In June, 1927, M. Briand, the French Minister of Foreign Affairs, made a historic proposal to this government. He suggested that France and the United States sign a treaty condemning recourse to war and renouncing it as an instrument of national policy in their mutual relations. During the eleven months that have since

elapsed, this suggestion has been developed into one of the most comprehensive peace proposals of the present time. The United States has accepted the principle and has agreed to include within the proposed treaty the suggestion of France and the United States, but also Great Britain, Italy and Japan, and any other nation of the world that might care to join in a renunciation of war.

KEELOOG BLAME

In order to facilitate such a discussion, the United States could be directed to straighten out its affairs. On purchasing the land of the French and the Italian Cemetery to the graves of American soldiers who died in the war, the French and the Italian governments had agreed to pay for the land. The French government had agreed to pay for the land, but the Italian government had not. The French government had agreed to pay for the land, but the Italian government had not. The French government had agreed to pay for the land, but the Italian government had not.

that threatened to be said, because of the theory that we have a government and a nation that are aggressive in regard to their own interests. Against such a theory of cabinets and of nations, the French government has asserted that the French government is not aggressive in regard to its own interests. The French government has asserted that the French government is not aggressive in regard to its own interests. The French government has asserted that the French government is not aggressive in regard to its own interests.

the Secretary of State, it is to formulate a policy. Such an a national condition would mean a serious loss of confidence among the people. It is not the policy of the United States to engage in a policy of national policy. It is not the policy of the United States to engage in a policy of national policy. It is not the policy of the United States to engage in a policy of national policy.

The Building Economist

Today, in any of our growing cities, you will find powerful Yellow Strand Rope rearing sturdy structures of steel and stone, brick and concrete.

Ask the various contractors why they rig their excavators, pile drivers, derricks and hoists with Yellow Strand Ropes. All will tell you the same story: "It lasts longer—prevents hang-ups—is safer—the men like it—and it costs less than others in the long run."

You'd hear a similar story from the men who supplied the "best material" for the building—Yellow Strand proved efficient and economical in logging the lumber for the workmen handling it at the mill; stripping clay for the brick; quarrying limestone for the concrete, and granite for the columns supporting iron for the steel work and dredging sand for the piers.

Here's why Yellow Strand Rope has greater standing than ordinary "improved plow steel rope": The basic stock of Yellow Strand Rope is famous Swedish steel, drawn abroad to our own specifications—providing us with wire having an extraordinary balance of strength, flexibility and elasticity. The properties are retained to their maximum capacity in the finished rope, thanks to our exclusive manufacturing process and a fifty-year experience in wire rope manufacture.

If your hoisting equipment calls for cable of superior quality, specify Yellow Strand. It will pay you.

GROWER BOARD OUSTER FAILS

Bay District Members Seek Change of Officers

But Fifteen Other Sections Rename Old Board

Returns from Peach and Fig Crops Criticized

FRESNO, May 30.—Although grower members of the California Peach and Fig Growers in the San Francisco Bay district last night voted unanimously in a district meeting to demand the resignation of all the present officers and directors, the growers of the fifteen other districts placed the present management in nomination for re-election with one exception, returns received today showed. The Alameda (Oroville county) unit nominated L. F. Arnold for director instead of George W. Vogt.

AIR AMBULANCE FEASIBLE

Patients in Serious Condition Transported 500 Miles Without Apparent Detriment

BAKERSFIELD, May 30.—The names of Gladys Moren, 18-year-old Kern high-school girl; Richard L. Wilson, huge-framed, 45-year-old engineer, and the Kern County Air Service may go down in medical history as having proved for science the fact that aerial transportation over distances of 500 miles and at an altitude of 5000 feet is safe for patients suffering from advanced one-sided pulmonary tuberculosis, according to Dr. E. A. Shaper, superintendent of the county tuberculosis sanatorium at Keene.

Dr. Shaper and Dr. J. M. Kirby, assistant superintendent of Kern General Hospital, acting under authorization of the Board of Supervisors last week, transported the two patients in the Kern Air Service plane, City of Bakersfield, piloted by Amos Collins, to San Francisco for thoracoplasty operations, which may save the two from lives of invalidism.

The medical world watched with interest as physicians were curious to see just how the patients would react during what is believed to have been the first attempt at transporting tuberculosis patients by air. Restoratives and equipment necessary for any medical emergency were carried.

In San Francisco Dr. Shaper and Dr. Kirby were joined by Dr. Leo Bloemer, who will perform the operations on the Kern patients, and returned to Bakersfield accompanied also by Mrs. Shaper.

NEW PLAGUE OF LOCUSTS HITS MEXICO

Oaxaca Section Suffers from Recurrent Attack Which Destroys Grain

PINOTEPA (State of Oaxaca) (Mex.) (P)—Locusts, swarming in great clouds from Guatemala and Central America, are leaving devastated farm lands in their wake.

Crops in the region around Pinotepe where the locusts have appeared have been wiped out and the fields swept clean of every sprig of green.

The area so far affected is comparatively small, but it is feared that the plague may, as a former year, extend all over the State.

Within recent years locusts have destroyed millions of acres' worth of crops in Oaxaca. Three years ago the losses were so severe that the Federal government established a "locust tax" of two centavos extra postage on every letter mailed in the republic. The proceeds were used for the relief of farmers ruined by the plague and for campaigns to destroy the insects.

Five Arrested in Dry Raids

BAKERSFIELD, May 30. (P)—Combing the area within a radius of three miles of the city in a series of night raids, Federal prohibition agents have arrested five men and confiscated approximately 700 gallons of illicit liquor within the last forty-eight hours, it was announced yesterday at the office of Paul S. Hays, head of the prohibition force here.

The five men paid a total of \$1300 on charges of liquor possession and conspiracy in the justice court of Judge R. L. Davis. The defendants all charged with possession of bootleg whiskey, were fined as follows:

John Sahagun, \$250; Horace Baty, \$250; William Hannagan, \$350; Frank Searlett, \$300, and Virgil Ladanway, \$250.

Martin Seeks Assembly Seat

HANFORD, May 30.—W. F. Martin, identified with the fruit industry in Kings county, in which he has been a resident for fifteen years, has announced that he will seek the nomination of the Republican and of the Democrat parties as Assemblyman from the Fifty-fourth District at the August primaries. The incumbent, Assemblyman J. P. Sewett, Republican, will seek renomination. Martin is registered as a Democrat.

RENOVATING CAMP AT WHITTAKER FOREST

WOODLAKE, May 30.—The boys' and girls' camp established last summer in Whittaker Forest, in the Sierras near here, by farm bureaus of Southern San Joaquin Valley, is being placed in shape for the summer.

In addition to the cook house and dining-planning installed last spring, hot and cold showers are being provided. It will prove popular with the boys and girls returning from long hikes in their study of forest problems. Construction is also under way at a new camp site for the girls.

Whittaker Forest will be ready June 5 to receive the 500 boys and girls who will be camped there during June and July. W. E. Gillilan, assistant Tulare county farm advisor, is one of the council members in charge of improvements.

FRESNO INCLUDED ON FORD AIRPLANE TOUR

FRESNO, May 30. (P)—Fresno was definitely selected as one of the stopping places for from thirty to fifty airplanes which will compete in the fourth annual Edsel Ford reliability air tour for commercial planes. It was announced here by Ray Cooper, former Fresnoan, who is in charge of the pathfinder ship which stopped here.

Cooper announced that the flight would start in Detroit June 30, and that the planes would arrive here July 14, all stopping at the municipal airport for luncheon before going on to San Francisco. Fresno is the approximate half-way mark in the tour which will cover 6300 miles.

MAN, WIFE ARRESTED IN LIQUOR CHARGES

LINCOLN CALLED NAVY ADVOCATE

Words of Emancipator Told by Ship Board Chief

Hope for Larger Merchant Marine Expressed

Memorial Hall of Tennessee University Dedicated

HARROGATE (Tenn.) May 30. (P)—Abraham Lincoln, in a message to Congress, advocated a stronger navy in order that the United States might be enabled "to maintain our rightful position on the ocean." Chairman T. V. O'Connor, of the United States Shipping Board, said here today, speaking at the dedication of the Duke Hall of Citizenship of Lincoln Memorial University.

The Shipping Board chairman quoted the language of Lincoln and said it embodies the thought "that ask you to bear in mind when thinking of American ships and American foreign commerce."

It is their solemn duty to maintain it."

GROWTH PREDICTED

Mr. O'Connor predicted that the enactment by the recent session of Congress of the Jones-White Act will stimulate greatly new ship construction by private interests.

He told of the increase of the number of Americans in the personnel of American ships and of the increasing number of young men who show a desire to follow the sea as a means of livelihood. Last year the Shipping Board placed about 1200 American boys on American ships, Mr. O'Connor said.

The work of the Shipping Board and the outlook for the American merchant marine were sketched by the Shipping Board chairman to the students of the university, which was founded from a suggestion by President Lincoln as a testimonial to patriotism of the mountain people and the work which they had done for the United States.

VETERANS GATHER

The exercises today inaugurated a five-day festival of dedication of the new hall of citizenship which was given by B. M. Duke, formerly of North Carolina and now of New York City.

Secretary of Interior Work was one of the speakers today. Veterans of the Blue and Gray were invited as the guests of the American Legion. The program for the afternoon included a memorial address by Gov. Sampson of Kentucky. This evening was given over to the dedication of a \$25,000 pipe organ given in memory of Mrs. Laura Work, deceased wife of the Secretary of the Interior.

FARMER VICTIM OF AUTO COLLISION

HANFORD, May 30.—The body of Antonio Costa, 50-year-old farmer residing five miles northeast of here, whose neck was broken in an auto collision with a car driven by J. L. Fox yesterday near Fowler, has been brought here from Fresno, where he leaves a widow and four grandchildren.

Changes in Methods Cut Costs and Boost Output of Auto Body Company

BY WILLIAM RUSSELL WHITE

Copyright, 1928, by New York Evening Post, Inc.

May 30.—Security analysts have heard that the Hayes Body Corporation has been competitive in the automobile market. The alert manager has demonstrated time

in methods. Instead of buying lumber and cutting it into material for bodies already cut in the required sizes. Economies in operation and storage space obtained under this procedure were reflected in lower costs, and the company was enabled to make voluntary reductions to customers on contracts. Its customers include Willys, Reo and Chrysler.

This action not only added to the company's prestige but stimulated increased business and resulted in a jump in output from 100 bodies

daily three years ago to 800 bodies now. The body building business, like other branches of the automotive industry, is seasonal in character, and the bulk of the business is crowded into the first six months. The effect of profitable operations in the first four months is shown in the balance sheet issued by Hayes for April 30.

Current assets increased to \$3,320,128 from \$1,629,972 at the end of December, and of this cash and receivables rose to \$1,787,863 from \$744,761. Sales in April totaled \$2,100,000, compared with \$1,700,000 for the same month of 1927, the company reported. Net of \$268,688 was equivalent to more than \$1 a share on the common.

Capital stock and surplus jumped to \$3,749,897 at the end of April from \$3,198,889 four months earlier. Bank loans were reduced last year to \$417,500 from \$847,500 at the end of 1926, and the management expects to liquidate the entire amount by August 1.

The company has retired \$371,000 of an issue of \$1,000,000 5% per cent first mortgage bonds sold in 1925, leaving \$629,000 outstanding. Preferred stock outstanding amounts to \$255,000, and there are \$200,000 shares of common.

Workmanship is often as important a factor in competition as price. The improvement in operations of the Hayes company this year is attributed by the management to the larger percentage of skilled labor employed in the assembly and finishing department, where men with long experience in the furniture industry were added. The ability to deliver bodies in accordance with schedules, in the face of steadily growing demand for speed, strengthened the company's position in the industry.

THE MICHIGAN TRUST COMPANY, Trustee, Grand Rapids, Michigan
DETROIT TRUST COMPANY, Co-Trustee, Detroit, Michigan
GEORGE C. THOMSON, Co-Trustee, Grand Rapids, Michigan

The following information is summarized from a letter from Charles F. Ruggles, President of the Company:

Company: The Calaveras Timber Company was recently incorporated under the laws of Michigan for the purpose of acquiring the interests of Mr. Charles F. Ruggles and his associates in a tract of timberlands located principally in Calaveras County, California. This virgin timber was personally selected and purchased for investment about 1910 by Mr. Ruggles, President of the Company, who is an experienced timber man and is well known to the industry throughout the United States. The Company's properties are located between the North Fork of the Stanislaus River and the Mokelumne River in the eastern part of Calaveras County, California, with small portions thereof in the adjoining counties of Amador and Tuolumne. This is believed to be the largest body, and one of the few remaining large bodies of Pine timber, in non-operating ownership, in the Sugar Pine region.

The timber can readily be made accessible by the construction of a logging railway to the line of the Southern Pacific. Logging conditions are excellent, and the timber is composed of approximately 24% Sugar Pine, 42% California White Pine, 25% Fir and 9% Cedar.

Ownership: The officers of the Company are: Charles F. Ruggles, President and Treasurer, Manistee, Michigan; John H. Rademaker, Vice-President and Secretary, Manistee, Michigan; Charles McPherson, Director, Grand Rapids, Michigan.

Valuation: Based on independent cruises of separate portions of the timber made in 1927, by representatives of the Detroit Trust Company and by James D. Lacey & Co., Chicago, Illinois, the timber covered by the mortgage is appraised as follows:

428,000,000 feet Sugar Pine at \$5 per M.....	\$ 2,140,450
740,550,000 feet California White Pine at \$4 per M.....	2,962,200
605,140,000 feet Fir and Cedar at \$1 per M.....	605,140

Total Valuation.....\$5,707,790

Security and Restrictions: These bonds are the direct obligation of the Calaveras Timber Company, whose timber, covered by the mortgage securing these bonds, has a present appraised value of \$5,707,790, or over two times the amount of this issue. The payment of both principal and interest of these bonds is unconditionally guaranteed jointly and severally by Charles F. Ruggles and John H. Rademaker, whose aggregate net worth, according to their respective sworn statements, is considerably in excess of this issue of bonds. The mortgage provides that if the Company decides to cut any of the timber on its property and covered by this mortgage, it may purchase for such purposes parcels of land and shall pay a specified price satisfactory to the trustee, for different grades of timber. These funds deposited with the trustee to secure the privilege of cutting timber shall constitute a sinking fund and shall be used only to retire bonds.

Titles to the land covered by the mortgage have been examined by Chickering & Gregory, San Francisco, California, for the bankers; and by Pillsbury, Madison & Sutro, San Francisco, California, for the underwriters. CITY OF SAN JOSE California

1915 Act Improvement Bonds

Serial Maturities 1929-1938

Exempt from all Federal Income Tax and California Personal Property Taxes

THESE bonds are issued for the improvement of University Avenue, Newhall Street and Davis Street from Alameda to Park Streets, San Jose, California. Alameda is the main business and residential street on the highway running from San Francisco to San Jose. Assessed value of land and improvements is approximately ten times the amount of the bonds, and this valuation does not in any case exceed 1/2 of the actual value of the property.

The 1915 Act provides that assessments levied thereunder to pay the costs of improvements are collected as a part of the general taxes on the same tax bill as other city and county taxes.

LOS ANGELES-FIRST NATIONAL TRUST & SAVINGS BANK, Trustee.

Mr. J. A. Talbot, President, has summarized a letter addressed to us concerning these Notes, as follows:

BUSINESS AND PROPERTY

Richfield Oil Company of California was incorporated under the laws of the State of Delaware on August 2, 1926, for the general purpose of acquiring and expanding the business of The United Oil Company (incorporated in 1909) and Richfield Oil Company (incorporated in 1911).

As at present constituted, Richfield Oil Company of California is a complete unit in the petroleum industry, being a producing, refining and marketing company. Present production is at the rate of over 10,000,000 barrels per annum. The Company's refineries have a capacity of 65,000 barrels per day, and its products are distributed through 8000 service stations located throughout the States of California, Oregon and Washington. The Company's operations have kept pace with the rapidly growing consumer demand for its refined products, known under the trade names, "Richfield" (gasoline) and "Richlube" (motor oil). Export sales are making satisfactory growth.

DESCRIPTION OF NOTES

These Notes will be a direct general obligation of Richfield Oil Company of California, and will be convertible into the common stock of the Company, at the option of the holder, at any time prior to maturity (except in the event of prior redemption, when the conversion privilege will terminate on the tenth day prior to the date set for such redemption) on the basis of 16 shares of common stock for each \$1000 principal amount of Notes, or at the rate of \$62.50 per share. In accordance with the Trust Indenture the price at which the stock may be issued in conversion of Notes may be reduced, but in no event increased.

STOCK EQUITY

These Notes are followed by 399,500 shares of Preferred Stock and 1,466,046.72 shares of common stock, with a current market value indicating an equity of over \$75,000,000.

EARNINGS

	Years ended December 31:	
	1926	1927
Net earnings after all bond interest and other interest charges (excepting interest on Serial 6% Gold Notes of subsidiary company being retired in this financing), but before deductions of Federal taxes, depletion and depreciation	\$3,948,457	\$6,023,437
Net earnings after all bond interest and other interest charges (excepting interest on Serial 6% Gold Notes of subsidiary company being retired in this financing), and after deductions of Federal Taxes, depletion and depreciation	2,768,232	3,837,294

Net earnings, after depletion, depreciation and Federal taxes, and after interest charges on First Mortgage and Collateral Trust Gold Bonds and all other interest charges (excepting interest on Serial 6% Gold Notes of subsidiary company being retired in this financing), for the year ended December 31, 1927, amounted to \$3,837,294, or almost 14 times interest requirements on these Notes, and such earnings for the three months ended March 31, 1928 amounted to \$1,408,658, or at the annual rate of over 20 times interest requirements on these Notes.

As of December 31, 1927, \$11,650,000 First Mortgage and Collateral Trust Gold Bonds were outstanding. During 1928 to and including May 26, 1928, \$8,033,500 bonds were retired through conversion and sinking fund operation, decreasing prior interest charges to the extent of \$482,010 per annum. This diminution in interest charges is not reflected in the above ratios.

PURPOSE

Proceeds of these Notes will be used for the redemption of \$574,200 of The United Oil Company Serial 6% Gold Notes, being the total outstanding (after applying the proceeds from exercise of The United Oil Company Stock Purchase Warrants to the retirement of its notes) and the balance for other corporate purposes.

All legal proceedings incident to the incorporation of the Company and the issuance of the above Notes have been under the direction and are subject to the approval of Messrs. Gilman, Dunn & Crutcher of Los Angeles, for the underwriters.

These Notes are offered for subscription strictly subject to allotment, when, as and if issued, and subject to approval of counsel as to the legality of the steps taken in the issuance, and the approval of the Commissioner of Corporations of the State of California.

CARGO SERVICE TRAFFIC HEAVY

American-Hawaiian Tonnage in May 35,000

Business Handled by Fleet of Eighteen Craft

Two New Additions Put on Run to China Ports

Thirty-five thousand tons of cargo passed over the docks of the American-Hawaiian Steamship Company at Los Angeles Harbor during May.

Eighteen vessels participated in the accomplishment. Of these, eight were taken over from the Shipboard, while two newly acquired ships put out for South China and one for North China.

Seventy-five hundred tons went out in the ships for China, the first of the new twenty-one ship fleet acquired by the line and the Matson Line, and operated under the name, Oceanic and Oriental Navigation Company. The vessels are being taken over from the Shipboard as rapidly as they return from the Orient, and all will be under the new flag in two months.

Today sees two more of the line's intercoastal ships in port. The Pennsylvania is discharging 1800 tons of paper, electrical machinery and crude rubber, trans-shipped at New York for the Pacific Goodrich plant here, while the Chinese is loading 1800 tons of boxes, copper hides for the Atlantic Coast and 500 cases of honey for Europe.

As reflected in heavy loading out of Los Angeles, the eastbound cargo movement has been good, according to Hooper, and he anticipated a highly satisfactory season, despite the usual lightness at this time of year.

HARBOR BELT LINE APPROVAL EXPECTED

George F. Squires, general manager for the Harbor Belt Line Railroad, has returned from Washington where he conferred with members of the Interstate Commerce Commission regarding the road's application for authorization to operate.

The result of the conference and the prospects for approval by the government body will be told by Squires at the meeting of the railroad's board of control, next Monday.

It is understood no difficulty is expected in getting approval, other than slight delay occasioned by a crowded calendar of prior matters already before the Interstate Commerce Commission.

The Harbor Belt Line Railroad comprises the lines of four private companies the city of Los Angeles, pooled for joint operation in the harbor district.

Port Manager Cole will open bids today for submission, with recommendation, at the Harbor Commission's meeting next Wednesday, for an award of dredging on nineteen different jobs fronting on municipal docks in the harbor. A total of 14,000 cubic yards of earth is to be removed in the deepening process, which will give the berth a uniform depth with the channel and be deepened to thirty-five and thirty-seven feet.

Harry Ence, attorney for the State Highway Commission and Mr. Ence were passengers on the Lasso liner, Harvard yesterday morning, arriving with 270 passengers and 1000 tons of cargo.

Saratoga Back in San Francisco for Engine Test

SAN FRANCISCO, May 30. (Exclusive)—The U.S.S. Saratoga, \$40,000,000 airplane carrier which failed in its speed tests, came into San Francisco Harbor and anchored in man-of-war row today to await additional tests of its turbine engines.

The engines were the cause of its test troubles, according to the naval board of inspection and survey. There are four such engines, but it is said the chief trouble is confined to one. Naval experts have explained a belief that the difficulties can be remedied by readjustment or partial replacement.

Evacuation of Quebec Flood Areas Likely

CHICOUTIMI (Que.) May 30. (P.) Evacuation of the isolated villages in the flood-swept Lake St. John region of Northern Quebec is feared necessary within the next twenty-four hours, unless conditions improve or flood can be taken in.

Men were sent there from L'Anse St. Jean and Petit Saguenay, the two villages suffering the most damage from the flood waters, to the flood supply is practically exhausted.

Wife at Last to Free Yale Scion

BRIDGEPORT (Ct.) May 30. (Exclusive)—Within three months Stanley Yale Beach, inventor, and descendant of Eli Yale, the founder of Yale University, will be free to marry Mrs. Caroline Watson and thus confer his name upon Mrs. Watson's daughter, Winifred, 18 years of age.

After twenty years Beach's wife, Mrs. Helen Birdseye Curtis Beach, of Bridgeport, Conn., will be free to press suit for divorce. Her case will be heard by Superior Court Judge Baldwin in Bridgeport on Friday.

Mrs. Beach, the aristocratic mother of Stanley's three grown children, will name Mrs. Watson as her co-respondent. She will tell the court that for nearly two decades Beach has maintained a home for Mrs. Watson and the daughter in New York.

New Afront to Vatican Cited

ROME, May 30. (P.)—Girl students at the University of Rome have been ordered to remove the badges of the Catholic University Federation, charges Observers Roman, Vatican organ, today.

Men students have been molested since Saturday, the article continues, ascribable as a reason an asserted wish of the Italian authorities for dissolution of the federation.

Proclamation of the Vatican dissolving the Catholic Boy Scouts does not apply to cultural organizations, says Observers, charging that the Vatican is acting hypocritically in its attitude toward the university authorities has been assumed.

Bunko Suspects Under Rearrest

SAN FRANCISCO, May 30. (P.)—At the Mason liner Malolo stopped in quarantine today after arriving from the Hawaiian Islands, four detectives took into custody Samuel Allen and Clarence Wankle, who had been released in Hawaii after being indicted for their asserted connection with the \$140,000 race track robbery of Sir Thomas Needham, British chemical magnate.

The San Francisco police held the two men for investigation regarding the alleged robbery of Needham, British chemical magnate.

Suspects Taken in Gun Battle

OAKLAND, May 30. (P.)—Arrested after a running gun fight, Edward Hector, 23 years of age, and A. J. Clark, 19, were held here tonight by police, who said the pair were responsible for the deadly robbery in Sacramento, Stockton and the district east of San Francisco Bay.

Found newspaper clippings in Hector's pockets indicated that he served on a jury in San Francisco a few weeks ago. Police records showed the pair escaped from jail at King City after being arrested in a stolen automobile March 31, last.

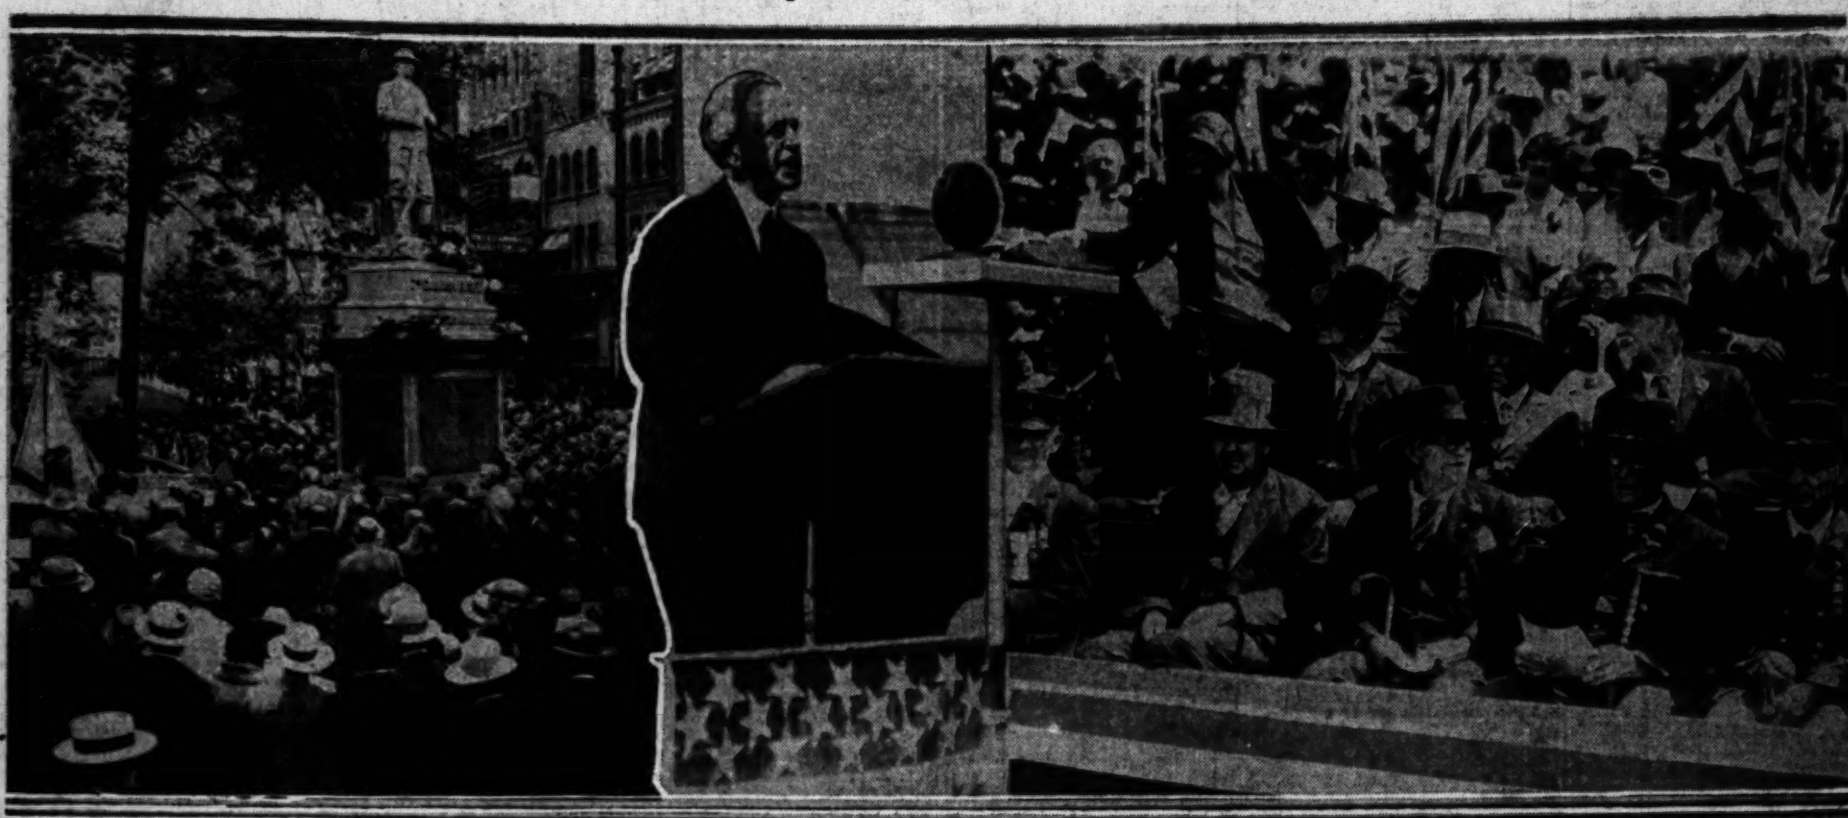

Loebe Advises Mexican Rebel Leaders Taken

BERLIN, May 30. (Exclusive)—President Loebel of the German Reichstag, one of the most prominent leaders of the Socialists, today was called to the German House by President von Hindenburg to prepare the formation of a new German Cabinet. Herr Loebel, who, though a Socialist, enjoys the full confidence of the President, will report on the final results of the elections and on the strength of his recommendations to the President

Harry Carr

ONE big city is a good deal like another big city. They are so interesting. But my heart goes out to these little California towns.

THE OLD ADONES

For instance, Warner's Hot Springs, which is an old Indian rancharia, is started to find itself turning into a tourist resort. The century-old adones houses where the Indians lived are being remodeled for hotel bungalows.

It gives you a little ache in your heart to see the metates—the stones rubbed away by small brown hands of forgotten squaws, grinding their acorns for food. When the Indians were evicted from their ancestral homes as Warner's twenty years ago, they were so disheartened that they left all these things behind.

THE ARCH-VILLAIN

It seems a great pity that the people who now visit the place know so little of its history. Warner's has a place unique in California tradition. In the days of the Connecticut Yankee who called himself Don Juan, Jose Warner, it was a famous stopping place on the Argonaut Trail.

The grandest villain in western history was a white renegade named Bill Marshall. He started a bloody Indian insurrection at these springs. It swept through California like wildfire.

A HISTORIC JAG

Below Warner's is an old rancharia, saved from the vengeance of the Indians by the grandeur of a high-toned jag.

The old rancharia who owned it happened at the time of the outbreak to be home alone. As consolation, he got on a roaring, solitary swoop; lit a big bonfire and did war whoops around it in his exuberance. He sounded so much like a war-like garrison that the Indians discreetly retreated. They burned all other rancharias.

THE LOST MINE

Santa Ysabel and Julian must be how much as they were in the '30's.

It is easy to believe that the same Indians were hanging around the general store—as now at Santa Ysabel.

Julian was an outlying town for the mines. These mines still stand there—skeletons of lost hopes. Rusted, creaking windmills seem to hint of ghostly vanished hands.

We met an old prospector sitting in loneliness on the steps of the store. He told us confidentially that he was pretty sure the lost Peg Leg Mine was really somewhere around Julian. "It's so awful hard," he said, "to remember how to get back to the place where you have been gold."

THE OASIS

By Robert Quillen

A Coyote Wells was an oasis in the desert known to wild animals for untold centuries before the first white man saw Imperial Valley. For many years, it was the refuge of wandering Indians. When the Argonauts began to cross the plains, it was a blessed place where they found gold.

"The nearest I ever come to hating Pa was when I nearly died havin' my first boy an' heard him braggin' about it like he'd done it."

JULIAN CHIEFS' CASE UP TODAY

Federal Grand Jury to Act on New Charges

Violations of Postal Laws Attributed to Pair

Particulars Center Around Prior Oil Deals

The United States government case against S. C. Lewis, former head of the Julian Petroleum Corporation, and Jacob Berman, alias Bennett, Lewis's associate, will go before the Federal grand jury here today.

Although Lewis and Berman were charged by local authorities here with responsibility for the Julian stock overture, in which the public lost millions, the government case is based on another oil promotion scheme of which Lewis was the head in New York several years ago. Technically, the two oil promoters are accused of using the mails to defraud.

OUT ON BAIL

Federal action in the case was precipitated by U. S. Atty. McRabb when District Judge Keys failed in State court to obtain a conviction of Lewis, Berman and others in connection with the Julian case last week. McNabb almost immediately after the acquittal in the county courts went before United States Commissioner Head and obtained a complaint, holding Lewis and Berman under heavy bail until the matter was taken before the Federal grand jury.

At the time the complaint was issued, Asst. U. S. Atty. Peterson asserted that Lewis organized the Lewis Oil Company, a Delaware corporation, in 1921, and afterward sold what was purported to be gold bonds but which were unsecured by the assets of the company, causing large losses to investors.

INQUIRY CONTINUES

At the same time they were investigating the Lewis Oil Company, postal inspectors, it is known, also were inquiring into the Julian matter, and this investigation, McNabb admitted, still is in progress. It was denied, however, that any angle of the Julian matter will be presented to the Federal grand jury today.

In addition to Lewis and Berman, it is understood, indictments against three other men connected with the Lewis Oil Company in New York will be asked. None of the latter three, it is learned, are local men or connected with the Julian company.

City Officials Urge Survey of Airports East

He will get data as to personnel and methods of operation and plans and specifications of buildings.

SLEEP CHARMS TOO POTENT

Crawling Into Window for Nap Falls to Arouse Court Sympathy

"Just crawling into a window" to sleep caused William Nixon to be held for trial in Superior Court by Municipal Judge Elliott Gibbs.

Nixon slept on a pool table in an establishment at 1316 East Ninth street on the nights of the 10th and 16th inst. and April 15, last, according to the charges.

"I just became sleepy," he told Judge Gibbs, "and after dark I crawled into the window of a pool hall and slept on a table."

Employees of the poolroom testified that on one occasion Nixon also took \$20 from the cash register. He will be tried on three charges of burglary. Judge Gibbs set his bond at \$2000.

INCREASE IN AIR MAIL OF COAST SEEN

Passage of Bill Reducing Postage Will Bring More Business, Says O'Brien

Vast fleets of airplanes, many more than now in operation, will ply between Los Angeles and eastern points and northern and southern Pacific Coast points, it was predicted yesterday by Postmaster O'Brien following the passage of the recent act reducing air-mail postage to 5 cents. The present complement of airplanes will be inadequate to cope with the situation, it is predicted. The new law cuts the cost of air-mail postage by one-half. It is not yet in effect, however.

Many persons, said Mr. O'Brien, have the impression, since the recent passage of the law, that the reduced rate now is in effect. In spite of this, by an order from the Postmaster-General, Mr. O'Brien has been forwarding air-mail letters with only a 5-cent stamp but marking them "postage due 5 cents."

It is said the date when the new 5-cent air-mail stamp will be used has not been decided. To use air mail, it is stated, ordinary stamps of 10-cent value, as at present, may be used, but the latter must be marked in the upper right, "Via Air Mail." Later this will be reduced to 5 cents.

freedom, for suppression of tyranny and for the betterment of all mankind.

In all its history, he said, "our country never waged a war of conquest. It alone of all the great nations of the world has not done so. If we wished to build an empire what power on earth could stop us? But we have other ideals and goals."

Eight of the eighteen soldiers who wear the Congressional Medal of Honor were present and were introduced to the assembly by Chairman Charles D. Ray. They are Edward F. Lyon, Van Langel, Warren G. Shepard, D. Hayden, Austin Denham, Robert Von Schick, A. M. Ray and Paul F. Straub.

INSPIRING SPECTACLE

The One Hundred and Sixtieth Infantry, California National Guard, was reviewed as an end to the ceremony, and presented a magnificent spectacle on the Coliseum pediment. Otto Fiolet, a veteran, sang a number of songs of war days to the piano accompaniment of the band. The band, led by another veteran, sounded "Taps" and concluded the ceremony.

Tribute to California's sons who fought and died in the Spanish-American War was paid during services at the Soldier's Monument in Pershing Square, under the auspices of the Seventh California Volunteers' Association. Following the invocation and introduction by Municipal Judge Galbreath, the address of the day was delivered by Rev. B. J. Darnelle.

The old Seventh California Volunteers was made up of soldiers from all over Southern California. The speaker pointed out, the organization was honored in im-

SISTER OF FILM STAR BRIDE

Director Weds Kin of Miss Shearer

Mr. and Mrs. Howard W. Hawks

THE marriage of Mrs. Athole S. Ward, sister of Norma Shearer, and Howard W. Hawks, film director, was solemnized yesterday afternoon at the home of the bridegroom's parents, Mr. and Mrs. Frank Winchester Hawks, 814 Benedict Canyon Drive, Beverly Hills.

Rev. Robert Freeman of the Pasadena Presbyterian Church officiated. The couple were married in the presence of a group of friends, including a number of prominent screen personages and relatives. Miss Shearer, wife of Irving Thalberg, screen executive, was matron of honor while Kenneth and William Hawks stood up with the bridegroom. The bride wore a gown of golden tulle and carried Gold of Ophir roses.

After the ceremony Mr. and Mrs. Hawks announced they plan on going to Honolulu for a short honeymoon trip, sailing from San Francisco on Saturday. Hawks is a director at the Fox studio.

On February 23, last, Kenneth Hawks and Mary Astor, screen star, were married at the latter's home in Hollywood. At this wedding Howard was the best man. Mrs. Ward is a divorcee.

pressive ceremonies under the auspices of Hollywood Post of the American Legion in the film center. Opening with a huge parade which progressed through the business section of Hollywood, the day was fittingly climaxed with memorial services in Hollywood High School Auditorium.

Every civic club, fraternal organization and patriotic body participated in the parade. Boy Scouts, veterans of the World War, veterans of the Spanish-American War and others were in the line of march.

Dr. J. P. Buckley, past president of the California Kiwanis, gave the address of the day, taking as his subject the day itself. In a brief speech to the crowded auditorium he told of the day's significance to the nation and its more pointed meaning to those who have lost dear ones in defense of their country.

COUNCILMAN SERVES

Councilman Alber of Hollywood district served as master of ceremonies and the assembly was called to order by Mayor Hiram W. Johnson, brother of Hollywood Post. The invocation was read by Rev. Dr. James H. Lash and the benediction was given by Rabbi Isadore Isaacson. Patriotic music was played by the Le Conte Junior High School Orchestra and the entire assemblage joined in singing the national anthem and "America."

At Hollywood Cemetery the graves of war dead and others were appropriately decked with the national colors and flowers. Impressive services were conducted.

One colorful incident of the day took place when an airplane load of roses and California wild flowers was scattered over the sea along the coast in memory of James McConnell, son of Judge McConnell and one of the first Americans to enter the war, joining the French service. Each year Judge McConnell scatters the flowers. This time he was ill and it was done by his friend, Judge Westover.

Seaside and mountain resorts were thronged with thousands who made a holiday of the occasion.

Impressive ceremonies marked the service at Roosevelt Memorial Park yesterday. Three United States Army planes scattered flowers over the graves while "The Star Spangled Banner" was played on the huge pipe organ, whose tones were heard by several thousand persons gathered to honor the dead.

Following the invocation by Rev. W. W. Kaiser, Maj. Frank R. McReynolds delivered the principal address of the afternoon.

Several sacred selections were sung by the White King Quartet. Patriotic music of the Civil War and the World War was played throughout the ceremonies.

After the benediction by Chaplain H. P. Hames a firing squad of nine men from Gardena American Legion Post fired a volley across the graves as Lloyd White, member of Gardena Boy Scout Troop 252, played "Taps."

The services were under the auspices of the American Legion posts of Gardena, Compton, Torrance and Redondo, with A. O. Barnes of the Gardena post of the Legion in charge of ceremonies.

cup held out to them in one of the cruelest deceptions known.

Twelve years ago, a courageous little Southern woman had a well-bred child, replacing the water hole; and went there with her young children to run a general store. And there she still is. A dot in a very charming woman with a very pretty daughter.

I asked her how she endured the loneliness. She laughed and said that she was lucky if she found time enough to herself to sleep. The traffic has become so great, in and out of the desert, that they are never alone.

ORPHANS TO SEE OLYMPIC FINALS

Film Players Buy Tickets to Give Children

Paddock and Dempsey Lend Impetus to Event

Band of 1000 Pieces Will Play in Coliseum

More than 12,000 orphans and crippled children will enjoy the program scheduled for the Southwest Olympic finals in the Coliseum June 18 due to the generosity of film players and others who have purchased tickets for them, said President Robert S. Weaver of the Southwest Olympic committee announced yesterday. Already 7000 of these tickets have been paid for.

Between 25,000 and 30,000 seats have been sold for this sport classic, and indications point to a complete sellout for the event, which is expected to realize \$100,000. The amount will be used to pay the expenses of the athletes of the Southwest in the American finals at Boston and also to defray the local quota toward sending American athletes to the Olympic Games in Amsterdam in August.

Considerable impetus has been given sale of tickets by the announcement that Charley Paddock, internationally famous sprinter, is now training for the "Race of the Century" at the Coliseum in which he will compete with Frank Wykoff, Charley Borah and Frank Lombardi. Boxing exhibitions by Jack Dempsey and other leading boxers, varied entertainment by motion-picture stars and athletic events will provide the high lights of this mammoth sports event which is to be delivered by the music of a thousand-piece massed high school band.

Included among those who have purchased tickets to be given to orphans and crippled children are Marion Davies, Norma Talmadge, Mr. and Mrs. E. L. Doherty, Sr., Douglas Fairbanks and Mary Pickford, Dolores Del Rio, Carl Laemmle, Jr., Henry Henington, Laura La Plante, Mary Philbin, Reginald Denney, Hoot Gibson, Conrad Veidt, Glenn Tyrone, Vera Gordon, Eileen Dee, Nils Asther, Bob Leonard, Allan Dwan, Anita Stewart, Yola d'Avril, Mrs. Louis B. Mayer, Jo Farrow, William Nigh, Ethel Jackson, Mrs. Charlotte Godding, Irene Clouing, Winifred Reeves and Jackie Coogan.

BREAKFAST CLUB HOST TO NOTED POLO PLAYER

In addition to entertaining as honor guests two of the leading contenders for Olympic honors, the Breakfast Club yesterday morning was host to other notables, including Capt. Hugh Kertson Greatwood, of His Majesty's Sixth Rajputana Rifles, a keeper of the famous Gligis Pass in the Himalayas, and one of the most noted polo players of the English army.

Others introduced were Walter McDowell of Tacoma, newly elected president of the National Building Loan League; Grace Hull De Wolfe, San Francisco newspaper writer; Bayard Veller, playwright; Robert Milton, New York theatrical producer; Justice George Malcolm of the Philippine Supreme Court; Burton R. Stare, Seattle manufacturer; Dr. George Webster, president, American Osteopathic Association; and Thomas E. Green, American Red Cross, Washington.

SEA PIONEER GETS BRIDGE OF HARVARD

Capt. Zeh, Thirty-nine Years a Sailor, Becomes Master of Coast Liner

Capt. Zeh, premier among America's merchant mariners, yesterday joined the fleet of the Los Angeles Steamship Company as master of the coastwise express liner Harvard, on the thirty-ninth anniversary of his career as a sailor. He received Capt. Magee, who has resigned to become San Francisco Bay pilot.

Capt. Zeh has since 1923 commanded the fastest merchantman under the American flag, the Admiral liner H. F. Alexander. Since he went to the bridge of the old coastwise liner San Blas in 1895, he has had command of liners in Pacific trade continuously except during the World War when he was commander of the transport, U.S.S. Invincible.

He is a member of the class of 1891 of the Pennsylvania State Naval School, first class of young navigators to graduate from the Schoolship Saratoga. His first vessel was the full-rigged clipper ship John R. Kelly, operating from New York to San Francisco via Cape Horn.

Capt. Magee has been on the Harvard bridge since March, 1926. During the World War he was supervising Inspector of war-time construction for the United States Shipping Board on Puget Sound and supervised the building of \$447,000 worth of merchant ships in forty Oregon and Washington shipyards.

GUINEA PIGS PERIL BOARDERS

Rodents Prove Far Too Good at Figures

JERRY OLSEN is an ambitious
young man, formerly a farmer
and now hoping to be an auto-
mobile mechanic, but according to
Mrs. Sarah Flynn, proprietor of a
students' boarding house in South
Flower street, Olsen carried his
farming activities beyond reason as
far as she is concerned.A few weeks ago Olsen came to
town for a course in an automobile
and electrical school. He needed
money to pay his living expenses
and brought with him a pair of
tame guinea pigs.Feeding his pigs with scraps from
the boarding-house table, Olsen ex-
pected to pay his living expenses by
letting the little creatures work for
him at their well-known trade of
family production in large quanti-
ties.The first pair of guinea pigs did
not cause much trouble, Mrs. Flynn
declared, but they proved too smart
at mathematics.Finally they overran the entire
house, she stated, so she had to tell
Olsen to look for another corral for
his pigs.A solution of the student's di-
lemma was found when L. J. Rosen-
kranz, superintendent of instruc-
tion of the National Automobile
school, promised Olsen a suitable
space on the school roof for his
pigs.Two and Two Make—??

HARD TEST FOR MUSIC'S CHARM

Savage Breasts of Taxpayers "Soothed" by Dulcet Strains
of Phonograph as Councilmen Try Out
Efficacy of Loud SpeakerNow the City Council is try-
ing out music to tame the sav-
age breasts of taxpayers who sit
amid the marble pillars and
costly furnishings at the new
City Hall and listen to the
Council spend public money in
car load lots, deny the protests
against paving and other im-
provements, and approve assess-
ments for collection.The music-maker is an at-
tachment to the loud-speaking
arrangement being tested in the
Council Chamber to enable the
property owners to hear what
the Councilmen are doing to
them and their pocketbooks.The engineers who are install-
ing the broadcasting apparatus
are using a temporary machine
which also includes a large
phonograph. The Council takes
a ten-minute recess every day
at 11 a. m., and Council Investi-gator Taylor has been turning
on the musical attachment at
recess time for the edification of
the audience of taxpayers. So
far Taylor has confined himself
to pipe organ records of the
"sweet, soft and low" variety so
as not to arouse the taxpayers
to violence. The loud speakers
are scattered about the room so
that when the pipe organ re-
cords are going the spectators
think they are in a cathedral
and properly subdued.So far Investigator Taylor
has not had the courage to put
on a jazz record for fear that
the spectators might start a
dance during Councilman's re-
cess nor has he put on a Will
Rogers record so that the pub-
lic will be reminded how amus-
ing are the municipal statesmen.
If the Council buys the loud
speakers the new permanent
broadcasting machine will be
minus the musical attachment.FIRE ORDEAL

wait for the test by fire and
water.He separated from his wife,
Julia Campbell, after she had
proposed to pour boiling water
on him and set fire to his bed,
he told Judge Yankwich when
he appeared in Mrs. Campbell's
proceedings to obtain alimony
pending trial of his suit for
divorce. Mrs. Campbell, ac-
cording to his complaint, once
went so far as to light a piece
of paper and approach his bed
with it.In her reply to the suit Mrs.
Campbell denied the fire and
water charges, but intimated
that in her opinion her spouse
would not have suffered from a
reasonable administration of
water. She declared that dur-
ing the three years they have
been married he took only
three baths, two of them at her
instance.Judge Yankwich ruled that
whatever the merits of the con-
troversy Mrs. Campbell is en-
titled to alimony of \$125 a
month pending trial and \$150
with which to pay Attorney

Part in Reno Divorce Told
in Warren Court FightThere was a wealthy man, an
eastern automobile designer, in the
background who financed the Ne-
vada divorce obtained by E. Ma-
jorie Warren, according to testimony
adduced by Attorney J. Perry Wood,
before Judge Yankwich, at proceed-
ings over the custody of her chil-
dren in connection with the suit of
Van Court Warren for a California
divorce.Warren was applying for custody
of the children. Mrs. Warren, set
up her Nevada divorce as a bar to
the California divorce suit. Warren
in turn attacked the Nevada di-
vorce, asserting it to be invalid be-
cause Mrs. Warren was not a bona
fide resident of that State.Warren declared that the other
man had paid the costs of the Ne-
vada action for Mrs. Warren, and
had given her money with which to
employ detectives to gather evidence
against him and to buy gifts for the
Warren children, which he refused
to allow them to accept.Judge Yankwich has the matter
under submission.Girl Thief Gets
Court's MercyJustice was tempered with mercy
by Municipal Judge William Fred-
erickson when he suspended a six-
ty-day jail sentence for Mabel
Fowler, who pleaded guilty to a
charge of shop lifting.The testimony showed that most
of the things stolen were children's
clothing and that Mabel was taking
care of the six children of her
brother-in-law and deceased sister.
The brother-in-law was not able to
provide for them, according to the
evidence. The total value of the
articles stolen was approximately

business."We have never deviated from the
routine of our procedure in those
five years in the date and hour of
arrival and departure, and you may
quote me as saying that in all those
years no port of entry has shown
the increase of business and in-
centive to proceed that Los An-
geles has meted out to us."Club Women's

ATTRACTIVE BRIDE OF SEA

Glendale Ceremony Very Beautiful

Mrs. Clarence E. Lynd

One of the attractive brides of the week is Mrs. Clarence E. Lynd, formerly Miss Afton Clegg, daughter of Mr. and Mrs. L. C. Clegg of South Robert Boulevard, the ceremony taking place Tuesday evening at the Little Church of the Flower in Glendale. Miss Dorothy Lynd, assisted as maid of honor while the bride was Misses Mildred Burton and Beata Oidings, while Charles Watkins, Jr., served Mr. Lynd as best man and the ushers included Bob Boone and Frank Allen. The bride wore a becoming gown

of white satin and lace, with a train of tulle. She carried a bouquet of white roses and lilies of the valley. The ceremony was performed by Rev. Bertrand R. Cocks of Phoenix officiating. The bride attended the University of Southern California and is a member of Delta Delta Delta Sorority, while Mr. Lynd is a member of Phi Kappa Phi and is a member of the Phi Kappa Phi Chapter at the University of California. The honeymoon is being spent at Arrowhead Springs and will last two weeks.

A Favorite Quick Dessert

By HENRI BASSETT, Chef, Ambassador Hotel, Los Angeles

AFTER using all kinds of gelatin desserts, we determined that Jell-well was, by far, the most successful. Jell-well always jells WELL. We can depend on it every time. Jell-well tastes better, too. Everyone likes it. That's because its flavor suggests the pure juice of western fruits—Loganberries, Strawberries and Raspberries of Oregon and Washington, Oranges of California.

This dessert is better looking, also. Clearer, more beautiful, and easier to make. It is light and you can see its pure transparency. Many Ambassador guests select Jell-well for its healthfulness. It digests quickly and assists in the digestion of other food.

Henri Basset

Your grocer has Jell-well in an assortment of flavors. Order Loganberry if you're in doubt.

Hotest Packet Free!

Send three Jell-well packets (fronts and backs) to Jell-well, Dept. 10-PP, 1440 West 10th St., Dept. 10-PP, Los Angeles, Calif. I will send you one free Jell-well Hotest Packet. (Only one to a home. Valid after Aug. 1, 1928.)

Where Quality is the Keynote

Jonathan Club
Los Angeles

ONE of Los Angeles' most distinguished Clubs, in which no pains are spared to give its members the very finest in quality and service.

Roberti-Sanotuf mattresses, and other Roberti products are used in the Jonathan Club—a great tribute to the quality of these famous Los Angeles-made products.

You, too, can have the same luxurious comfort at surprisingly moderate cost—ask your furniture dealer.

There are certain definite reasons for the superiority of the Sanotuf mattress—the ventilating eyelets which permit fresh air to pass through the filling material; the reinforced strips which prevent the ticking from stretching; the patented hinged tabs that insure uniform thickness.

Gentlemen:

We have intended for some time to let you know of the many favorable comments made by club members and visiting guests in regard to the comfortable beds in the club sleeping quarters.

Good box springs and mattresses make a bed.

You, rightfully, are entitled to much credit for having manufactured the box springs and Gray Hair Mattresses, and to the credit for the good judgment in purchasing the club to share fifty-fifty in the prize expressed, hence this information, which I am sure you will be pleased to receive.

Very truly yours,
J. E. Pencil, Mgr.

Finals in Southern California Junior Olympics To Be Held Saturday

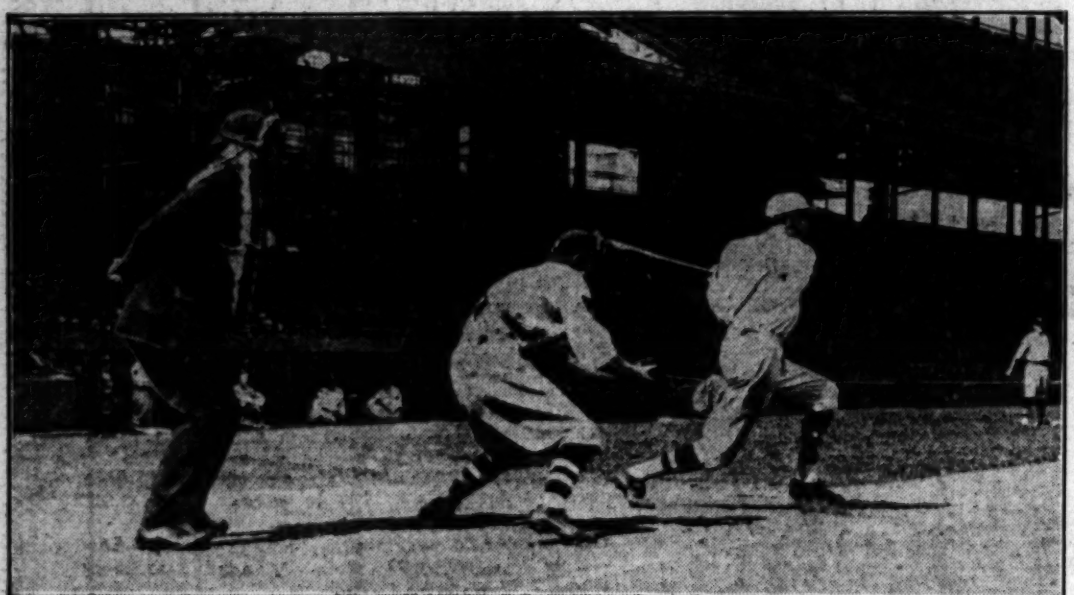

More Than 100 Young Athletes From Every Section of Southern California Will Compete in the Junior Olympic district grand finals to be staged Saturday at Moore Field, University of California in Los Angeles. Saturday's winners will represent the Southland in the national finals at Atlantic City this summer. In this photo 13-year-old Jerry Deal, local playground junior champion, is shown breasting the tape in a sprint. (Times photo.)

Airplane-Plunge Cure for deafness will be tried out on Peggy, baby sister of Padgett, English bull mascot of the marines. A marine ace will take Peggy (above) into the clouds and dive earthward. (P. & A. photo.)

One of the First Upright Pianos Ever Made, and probably the first model of its kind to be brought to California, will be displayed at the International Music Pageant, June 18-30, at Ambassador Auditorium. June Leighton is pictured above with ancient instrument.

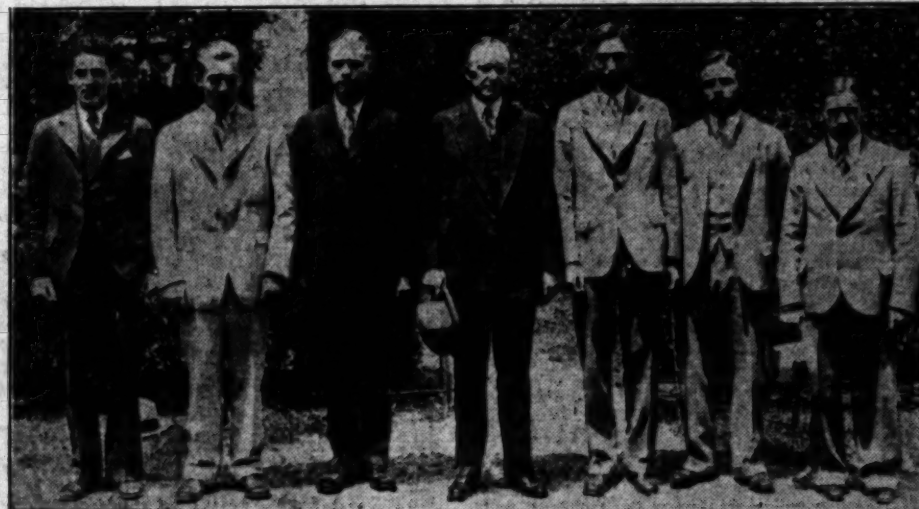

A Bit of Action in That Much Talked of Political Ball Game in which Democratic members of Congress defeated the Republicans by a 36-4 score, is presented above. Representative Mead (D) of New York is caught at the end of a swing which netted a two-base hit. The game is an annual affair and is believed to exert an influence on the political fortunes of the opposing parties during the ensuing year. (P. & A. photo.)

Organization of Main Relief Expedition in Norway to search for the lost dirigible Italia is being directed by Capt. Roald Amundsen (left), noted explorer, and Capt. Riiser-Larsen, who flew over the pole with Amundsen in the dirigible Norge. (P. & A. photo.)

Medals and Statuettes Which Will Go to Winners of Saturday's Meet are here shown as they are displayed in a window at Silverwood's. There are forty medals and six statuettes for the youthful athletes. The fact that Charley Paddock will make his first appearance since his eastern trip, in exhibition dash, adds interest to coming meet.

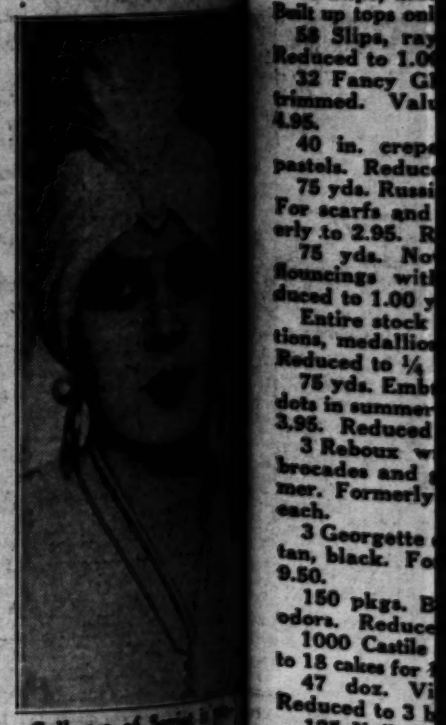

Participants in National Oratorical Contest Finals Meet President—This photo of the youthful orators with nation's Chief Executive was taken at White House last week. Left to right—Freddie Johnson, Cairo, Ill.; Joe West, Omaha, Neb.; James Moore, Somerset, Ky.; the President; Benjamin Hinden, Washington; Elliot Norquist, Kansas City; and Ralph Zabludofsky, Brooklyn. (A. P. photo.)

His Feet Are of Clay, members of the Zionist colony at Zion, Ill., assert of Wilbur Glenn Voliva; head of the cult, in suit brought in Federal court and charging illegal manipulation of property. (P. & A. photo.)

The Ways of Their Fathers Are Good Enough for natives of Java who still cling to many of the primitive implements and methods of their ancestors. This young fellow, for instance, is an official street sprinkler at Batavia, employing an age-old device. (P. & A. photo.)

Collapse of Soviet Union, India, and other world's great powers, have prophesied by world's great powers. (P. & A. photo.)

OUR HISTORY IN PICTURES 1043

The Story of Our War With Spain.
The Relief of Shafter's Army.

by J. CARROLL MANSFIELD

DURING THE TRUCE THAT PRECEDED THE SURRENDER OF "ANTIAGO, ABOUT 20,000 HALF-STARVED CUBANS LEFT THE CITY AND SOUGHT FOOD AND SHELTER WITHIN THE AMERICAN LINES. FEEDING SUCH A MULTITUDE WAS A DIFFICULT PROBLEM FOR OUR COMMISSARY DEPARTMENT, ALL SUPPLIES HAVING TO BE CARRIED OVER THE MISFRABLE ROADS FROM THE COAST.

THERE WAS MUCH DISEASE AMONG THE REFUGEES, AND OUR SOLDIERS, WEAKENED BY HARDSHIPS AND NOT ACCLIMATED TO THE TROPICS, FELL EASY VICTIMS TO CONTAGION. BY THE END OF JULY, 1898, 70 PERCENT OF OUR ARMY HAD BEEN STRICKEN WITH MALARIA, AND THERE WERE A FEW CASES OF THE DREADED YELLOW FEVER.

AUGUST 3, SHAFTER'S OFFICERS, WITH THE CONSENT OF THEIR COMMANDER, DREW UP A STATEMENT SETTING FORTH THE DEPLORABLE CONDITION OF THE ARMY IN CUBA, AND URGING THAT THE TROOPS BE RELIEVED AND SENT BACK TO THE UNITED STATES. THIS STATEMENT WAS PUBLISHED IN THE NEWSPAPERS BEFORE IT REACHED WASHINGTON, AND GREATLY ALARMED THE AMERICAN PUBLIC.

THE SECRETARY OF WAR AT ONCE ORDERED SHAFTER'S MEN TO BE REPLACED BY REGULAR TROOPS, AND BY THE FIRST OF SEPTEMBER THE HEROES OF EL CANEY AND SAN JUAN HILL HAD BEEN REMOVED TO MONTAÑA ROSADA ISLAND.
